WHAT IS THE PROJECT ?

The Youth Exchange “How I Kan Evolve (HIKE)” brings together young people of all profiles, from 4 different countries. HIKE **wishes to set up a collective reflection on the themes of environment, pollution and possible new alternatives to improve these observations.** The theme of HIKE was particularly chosen following numerous recent articles explaining the deterioration of the local environmental situation. **The objectives of this youth exchange are to promote the awareness of our mode of consumption and our real impact on the environment** by setting up workshops, reflections and debates, proposing 4 days of trekking in nature in total autonomy. To be in action through collective work based on the creation of an event for the attention of the outside public and schools to promote a message of respect and awareness of their actions.

Activities: Reflexion about environment and human impact on Nature, discovering new alternatives to develop oneself, hike and night out, creative workshops, organising an event to promote awareness.

Language : Activities will be in english, to enhance language practice. Trainers and group leaders should speak english fluently to help communication.
