Training Course : Basics of group dynamics and facilitating process

8-16 November 2017
Ajaccio, France

Countries involved : Austria, Bulgaria, Croatia, France, Greece Italy
23 Participants
Organised by [Center of Youth and Sport of Corsica](#) (CSJC)

WHAT IS THE PROJECT ?

"Training Course: Basics of Group Dynamics and Facilitating Process" is the result of the experience of CSJC on youth exchanges, and the need to provide a training improving group dynamics skills of previous participants. It provides an opportunity for participants to reflect on issues of cohesion and personal development (joining inclusion and equity).

The objectives of this project are to enhance skills of future facilitators and trainers to promote quality work for Erasmus+ projects. Also, the idea is to develop a European network for the participants to create their own projects after this Training.

Activities: immersion in nature with outdoor sports, outdoor night, workshops, inputs of theory, use of feedback and lead of workshops.

Language : Activities will be in English.

SOME OBJECTIVES OF THE TRAINING

- Develop emotional intelligence, self-confidence, self-knowledge and about others, active listening.
- Understand the posture of a trainer/facilitator, emotional involvement and the distance required for proper development of a group
- Develop the technical skills of the collective organization, leadership, managing emotions and conflict management.
- Develop social skills such as opening to others, respect, fairness, discover through communication, shared values and be able to promote diversity on a European scale as well as local.
- Promote the Erasmus + program and its possibilities in order to create sustainable quality network of cooperation.
